

Alphabet/Google A-Z

This document was created as a labour of love (and personal challenge!) to support a presentation I created many years about the use of Google products in Education — at a time when Google Apps was just starting to gain in popularity.

A copy of this document will always be kept in my [GitHub account](#) as well.

Anything missing? Contact me at pbeens@gmail.com or [@pbeens](#). Thanks! ~Peter

The short URL of this Google doc is: <http://goo.gl/d387>. It is simultaneously published as a web page at <http://goo.gl/qBPWy> (better for embedding or when there are a high number of viewers).

If the Google Doc isn't viewable because it's been flagged again I will also have an exported copy available on GitHub at bit.ly/google-a-z.

⁷⁵ It look likes this beta program just quietly died.

⁷⁶ Announced July 29, 2013 at <http://googleblog.blogspot.ca/2013/07/a-new-zagat-for-finding-very-best-places.html>

⁷⁷ Zeitgeist archives are available back to 2001.
