

Alphabet/Google A-Z

This document was created as a labour of love (and personal challenge!) to support a presentation I created many years about the use of Google products in Education — at a time when Google Apps was just starting to gain in popularity.

I have attempted to keep it up to date as I learn about new content, but sadly, Google seems to think this document contains inappropriate content and keeps flagging it. Originally this wasn't such a problem as it only restricted me from sharing the document with others, but lately the document has been blocked from even being viewed at all.

This item has been flagged as inappropriate and can no longer be shared. [Request a review](#) [Dismiss](#)

To get around this I am going to start keeping my [GitHub copy](#) of the document up-to-date and will share it from there, at least until I can successfully get the document reviewed and unflagged as including inappropriate content.

Anything missing? Contact me at pbeens@gmail.com or [@pbeens](#). Thanks! ~Peter

The short URL of this Google doc is: <http://goo.gl/d387>. It is simultaneously published as a web page at <http://goo.gl/qBPWy> (better for embedding or when there are a high number of viewers).

If the Google Doc isn't viewable because it's been flagged again I will also have an exported copy available on GitHub at bit.ly/google-a-z.

⁷² It look likes this beta program just quietly died.
