Alphabet/Google A-Z

This document was created as a labour of love (and personal challenge!) to support a presentation I created many years about the use of Google products in Education — at a time when Google Apps was just starting to gain in popularity.

A copy of this document will always be kept in my [GitHub account](#) as well.

Anything missing? Contact me at [pbeens@gmail.com](#) or [@pbeens](#). Thanks! ~Peter
